

DRAUMET PREMIUM Right-cut Tin snip

4063

Opis

- For straight cuts and curved cuts
- Perfect for cutting cold-rolled carbon steel sheets up to a thickness of 1.5 mm and stainless steel sheets up to a thickness of 0.9 mm
- Made of the best quality chrome molybdenum steel, with perfectly induction hardened blades with hardness of 60-62 HRC
- The special tothing of the blades prevents the cut material from slipping during work
- The scissors have a double lever mechanism that increases the pressure force
- Ergonomic shapes ensure that the hand does not get tired during work, and the rubber, two-composite handle ensures a solid grip
- Length 250 mm
- Cutting blade length 32mm

Characteristic:

- For professional use
- Ergonomic handle

Parameters

- Length: 250 mm
